MORTON'S PLANS FOR EQUITABLE

Will Endeavor to Make New Administration Honest, Courageous and Conservative.

RETRENCHMENT ORDER OF DAY

Believes in Proper Laws for Safeguarding Sacred Trusts of Insurance.

(By Associated Press.)

NEW YORK, Sept. II.—President Paul Morten outlined the policy of the new management of the Equitable Life Assurance Association in an address which the delivered at Manhattan Beach to-day to 750 agents of the society who came from different parts of the country. After briefly reviewing recent events, in the Equitable, Mr. Morten said:

"I am going to say a few words to you on your new administration. There will be no attempt to make it dazzlingly brilliant. The effort will be to make it honest, courageous and conservative. There will be the greatest consideration shown for the policy holders and at every turn their interests will be protected.

The institution will not be run as will have a chance to deal with us, andi-our aim will be to buy the very best at the very lowest prices. I believe in proper laws safeguarding the sacred trusts of insurance, and I will co-oper-ate in the enactment of day necessary laws with that end in view. "Retrenchments are the order of the day in the Equitable. They already amount to over 1600,000 per year, which it equal to four per cent, on an invest-ment of \$15,000,000."

Music in Treatment of Insane.

It is well known that music is a valuable and a New York physician avers that the in also improve. Music has a healing effect upon both the body and the mind.

A Wart or Pimple

MAY BE CANCEROUS.

When a wart, mole or pimple shows any sign of tenderness it is a warning that had blood is behind it. Often these places are on the face, hands, legs or other part of the body for years, and give no sign to cause uneasiness, and then with a little rough handling, a slight cut or bruise will develop into a sore that refuses to heal, and the sufferer finds himself afflicted with a cancerous ulcer.

About three years ago a blister came on the right side of my nose. It grew speedily in spite of all efforts to heal it up the pain was not very sovere at first, but increased when the sore began to inflame and discharge matter. At times the place would scabover and appear to be getting well, but the sach would drop off, leaving a red, angry looking ulcer. I had almost despaired of over ouring a, when my attention was called to 6.5.8, and after taking a few bogses hegan to gradually grow smaller, the discharge stopped and I was cured.

Owensboro, My. JNO. MASSIE.

Owensbore, Ky.

If the blood is pure and healthy these sores cannot exist. S. S. S. is the ideal blood purifier. It cleanses the blood of all poisons and impurities, making it strong and vigorous and able to supply the body with the strength and nourishment it needs. There is nothing that acts so promptly as S. S. S., toning up the entire system, helping the general health and curing sores permanently.

Do not let a wart or pimple develop into a cancerous ulcer, but purify your blood with S. S. S. It is nature's remedy, purely vegetable, and while driving all poisons from the blood, will build up every part of the system. Book on the blood and any medical advice desired will be given without charge, to all who write.

"I have not declared myself an independent candidate for the Legislature," said Captain Lee in his statement given out on Sunday.

"All this talk of my bolting thid turning Republican and such like is not so. I'm as good a Democrat to-day as I ever was and I have served my party since 1857, having been the chairman in this county for a quarter of a century."

"Why did you resign from the chairmanship of the committee?" was asked.
"Because of the primary plan. It was time for the election of officers in the county committee, and I thought it a chance to give the young blood a show, I have been chairman for so many years and it has been a great deal of trouble and expense to me, as I had all the work on my shoulders.

"When I hand over my papers to-morrow and relinquish my office as chairman I will offer my services to fight in the ranks if they need me. I'm a Democrat, but if stand for the straight thing. It is because of the state of affairs in Stafford of late years that the Republicans have such a strong following. The newspapers in the State have done me a great injustice, My record is an open book and I chailenge anyone to say that I have not been square and above board. I repeat f was forced into this campaign by my friends."

Captain Lee and Mr. Moncure having each agreed to abide the decision of the joint meeting, it is as fo to say that the trouble is over, and that there will be but one Democrat in the field.

ARE TALKING ALREADY ABOUT NEXT CAMPAIGN

Names of Five Probably Candidates For Gubernatorial Nomination Discussed-Much Interest Taken in Visit of Witte to Washington.

Visit of Witte

(From Our Regular Cogrespondent.)

WASHINGTON, D. C., Saptember II.—
The Virginian's love of politics was well
illustrated here to-day is three citizens
of that state, who spent an hour or
more discussing the campaign which will
be made in 1995 for the Democratic nomlination for the governorship—this immediately following a hot campaign for
the nomination and before the people
they ratified the selection made in the
primary contest.

The conversation demonstrated that
there will be at least five candidates
discussed, if no more, it is possible that
all of the men now being talked of will
not enter the race, but the men whom I
have alluded to above believe that there
will be in the fight four years hence

which I shall strive to win, but there are some strong men running against me."

Join W. Churchman, of Augusta, and W. D. Cardwell, of Hanover, are the other candidates for the honor of wielding the gavel. S.

Colonel Lee had a harder fight for the renomination this year than his friends expected he would have. It seems there was passed by the last General Assembly a road law for Fairfax, mainly through the efforts of Colonel Lee. The law was endorsed at a largely attended meeting of the clitzens of Fairfax and sent if Colonel Lee to have passed. He though it was favored by nearly everybody in the county, and so got it through. It has proved very unpopular, and came near achieving the defect of the patron, as he carried the county by less than a hundred votes, which probably surprised his enemies as much as his friends, as he had always been exceedingly popular with has been off proven to be about the most dangerous thing a member of the Virginia Legislature can tackle, unless the a dog law. Colonel Lee has always been exceedingly popular among his coleagues, and the man who beats him will carn the honor.

Of course, the campaign which Judge Lewis and the Slemps are making for the governorship of Virginia is not taken very seriously by either Democrats or Republicans here. There was a weird story sent out from here last week to the effect that President Roosevelt would probably make a tour of Virginia in the interest of the Republican ticket. The story was too absurd to be denied. No President has ever taken the stump in behalf of the ticket of his party, whether in a State or national election. President Roosevelt will not depart from the unbroken custom.

It was then that the crowd realized the true dimensions of the giant Witte, and they cheered heartily. Directly Baron Rosen came out on the plaiform, and he showed that he is coming to American ways. Instead of a cigarette he was pulling on a big cigar of the three-for-fifty kind.

Witte seemed as reluctant to leave the crowd of unknown admirers as they were for him to leave, and not until his train disappeared in the distance did he leave the rear platform. There was nothing of the putting-himself-on-exhibition air about him as he sat there, no more than there would be about plain, unaffected "Barnery' Keezell. The interest between him and the crowd that watched himself as regarding Washington, Jefferson and Marshall, the three greatest men America has produced. Madison, Mason, Lee and Jackson, also came in for special mention. Who Discovered Bananas?

A boom in the banana trade in England reminds a correspondent of "The Liverpool Courier" that it is 340 years since the fruit was discovered by English merchant adventurers. In 1565 is to be found the earliest reference to the banana, It is in Captain Laudonniere's second "Voyage unto Florida," in that year and the year following. Here is the passage, and it will be observed the word is spelled "Ananas"; "Dominica is one of the fayrest islands of the West, full of hills, and of very good smell. Whose singularities dealring to know as we passed, and seeking also to refrosh ourselves with fresh water, I made the mariners cast anker, after we had sayled about halfe along the coast thereof. As soon as we had cast anker, two Indians (inhabitants of that place) sayled towards us in two cances full of fruite of great excellence, which they called Ananas."

Two versions of the cause of the wreck were told to the coroner. One of these was that the switchman had set the tracks for a Sixth Avenue train and when he saw his mistake had attempted to rectify its while the train was on the curve, the change throwing the second, third and fourth cars off the track. The switchman, however, we clares the wrecked train had Sixth Avenue signals set and he expected it to slow down to take the curve. Instead it maintained the speed usual with Ninth Avenue trains on the direct line.

"I was on the first platform of the second car. We had just left Fifty-ninth Street and were going at a fair rate of speed, as it is a long run to Fiftieth Street. The car was pretty well crowded. There were a number of men on the platform and in the aisie of the second car. There were a number of shop girls, who were anughing and jokins.

"When we reached the curve the first car went on, and the second and third cars went together like a jack-knife, sticking right up in the air and practically closing against each other. In consequence, from where I was on the front platform of the second car, at the start I was dropped to the rear platform of the first car. Then the second car dropped to the street. I
